It was a mean and dastardly act in the man that fired upon and broke the blue light over Frapps' lager beer saloon while the demonstration was going on Monday night. Mr. Frapps is a peacable, quiet and unoffending citizen, that we thought had not an enemy in the world.

FATHER EVANS, THE SNAKE HUNTER.-Father Evans, who is gaining quite a reputation as a snakeist in Caswell, says "we are after snakes for Woodson's benefit." With one or two more elections in Wake county like the one we have just had, we rather think we could find more than we had a use for at home. In the meantime, we thank you, father, aud sincerely hope that you will find some one to take a part of your bountiful supply. At present, we don't need them.

THE PIC-NIC AT CRENSHAW'S MILL.—In our article yesterday in regard to the pic-nic at Crenshaw's Mill it would seem that it was a public affair gotton up by citizens of the neighborhood in honor to our candidates. We were in error. The picnic is gotten up privately by the young men and invitations sent out to those expected. We have been honored with an invitation for ourself and lady, and if "nothing hap-pens" both of us will be on hand.

RALEIGH AS SEEN BY A OUTSI-DER.—Mr. Perkins, one of the Edi-tors of the Norfolk Landmark, who was in this city on Thursday, thus speaks of his impressions of Raleigh and her people: Our recent and first visit to North

Carolina's capital, the beautiful 'City of Oaks,' was attended with so many pleasant sights and agreeable associations that we shall long treasure its memory among the few bright epochs which have marked our reportorial

The country in this section of North Carolina is rolling, giving a succession of miniature hills and dales, which, while they do no. as grandeur and immerate portions of those in the every delightful diversified apprehensive terizes the scenery of the flat country within the tide-water section.

The city itself is built upon a succession of gentle eminences and picturesque vales, and is so completely embowered in mammoth oaks and other magnificent shade trees that to other magnificent shade trees that to a spectator, looking from the lofty dome of the capitol, it presents, at this season of the year, a fine repre-sentation of a grand old forest with its primeval trees rearing their giant arms heavenward; the tops of a few houses and the church spires alone denote that under this green canopy, which undulates with every passing which undulates with every passing breeze and shimmers in the brilliant sunlight, lays a city filled with the bustle and activity of trade and the unmistakable signs of enterprise and

rapid growth. The shortness of our stay, and the important character of the duties we had to perform, prevented us from visiting the several fine public institutions which are situated in and around Raleigh; but during our rambles through town we were struck with the size and elegant architectural appearance of numerous residences and stores recently completed or in process of erection, and we think that we do not overstate the case when we say that she is growing as rapidly as any other city in the

Among her hotels the Yarborough House, Dr. George W. Blacknall, proprietor, stands pre-eminent. This beautiful structure is situated on Fayetteville street, a short distance below the capitol. An addition now in process of completion makes it one of the largest hotels in the South. It contains one hundred and twent five sleeping apartments, a well stocked bar, barber shop and all other appurtenances usually found in a first-class hotel. The whole building is elegantly furnished, and the tables groan beneath the weight of good things, carefully selected from the very best the market affords, and served in splendid style by ex-

tive waiters. Dr. Blacknall is a gentleman of courteous and dignified manners, in fact the very impersonation of the popular idea of what a host should

The Yarborough is the most frequented resort in the city, and numbers among its guests some of the brightest lights in the Old North State. We are indebted to the proprietor and his able corps of assistants for many favors and acts of kindness.

We met and formed the acquaintance while there of several distinguished North Carolinians. Among them, Judge Merrimon, General Ransom, General Cox, Chairman of the Conservative State Executive Committee, and W. H. Howerton, Secretary of State.

Our specials informed the readers of the Landmark of the rejoicings in Raleigh over the glorious Conservative victory in the State, and especially in Wake, the Metropolitan county. For years her citizens have been groaning under oppression and misrepresentation, and the reaction opened wide the flood gates of joy and hilarity. Business was almost entirely suspended, thousands thronged the streets, public speaking, music, salvos of artillery, and huzzas resounded from every quarter. Old citizens said that such general rejoicings was never witnessed in Raleigh before.

On Saturday morning we bade our kind and hospitable friends adieu, and started for home, reaching Norfolk about 8 o'clock p. m.

Before closing this brief sketch we would take occasion to return our thanks to Jordan Stone, Esq., M. jor Dunham and E. C. Woodson, Ecq., of the Raleigh News, for the great assis tance they rendered us, and their unceasing efforts to make our visit pleasant. Under so able a management the News must long continue what it is now-one of the leading papers in the South.

ISAIAH KING, THE FALLEN.-It is said that when Isaiah King, one of the Radical candidates for the House in this county, heard of his defeat, he actually shed tears. At first he would not, could not believe that it was true, and appealed to the Clerk for the official vote. This same Isaiah, be it remembered, was one of the three white men of the ticket, and that the outside world may know of what material Wake county Radical-ism is made of, we append Isaiah's maiden speech on the campaign. It is strictly true, and we give it verbatim, et literatim, et punctuatim :

Feller-Citterzens:-I rise for de purpose of announcing myself a candidate to riprersent you in de House of Reprersentatives of de lower house of the Gineral Assembly. Feller-citterzens, I'm a furmer, you cannot disperse with the furmers, therefore you can't disperse with me. I'm bound to be elected, and I want every one of you to come to the State House and scuterize my votes. Thank you for your attention and remember to vote for King.

NOTES BY THE WAYSIDE. - AS soon as the smoke of the election battle clears off and the result of the glorious victory is footed up, we pro-ATTEMPTED BURGLARY.—Saturday night last, some thieves attempted to effect an entrance into the local while on his western campaign were in error when we said that the liquor store of Mr. J. could be written. For the present our space must necessarily yield to the pressure of the election news.

WHAT LONG PERRY SAYS—THE OLD, OLD CRY—HE WANTS MORE TROOPS.—A special dispatch to the Herald, under date of Washington the 9th inst., gives the following laughable account of what Supervisor Perry thinks of the recent glorious victory in North Carolina:

"Supervisor Perry, of North Carolina, arrived here this morning enroute for Maine, where he will spend a few weeks. He says that the Civil Rights bill is what killed the Republican party in North Carolina and concedes a Democratic majority of 10,000. Two years ago, it will be remembered, this official was the leader of the Republican party in North Carolina and organized the State so at the secure a Republical majority to the Presidential compaign in March.

him, and he thinks it would have been better had Congress disposed of the Civil Rights measure. So great a victory on the part of the Democrats, he fears, will encourage illicit distillation, and he will ask that military posts be established in the him, and he thinks it would he a victory on the part of the Demo-crats, he fears, will encourage illicit distillation, and he will ask that military posts be established in the parts of the State where it has already

been suppressed."
Some Radical, disgruntled with
Perry, cheats the Postoffice Department by sending us in the Herald
the enclosed manuscript in reference
to the above:

to the above:

"Mr. Perry has never had anything to do with either the organization or the leadership of the State. The statement that he has had is simply ridiculous. This dispatch to the Herald was probably procured by Mr. Perry himself. He knows the ropes in Washington and what money will do in creating fictitious reputation."

ELECTION RETURNS .- The following additional returns reached us

First Congressional District.—Perquiman gives Yeates 20 majority; Currituck gives Yeates 405 majority; Camden gives Yeates 189 majority; Chowan gives 133 maj.; Gates gives Yeates 508 maj.; Hertford gives Cobb 85 maj.; Bertie gives Cobb 376 maj.; Pasquotank gives Cobb 210 majority; Washington gives Cobb 136 majority; Tyrrell gives Yeates 250 majority; Beaufort gives Yates 300 majority. A correspondent from Hertford says the election of Yeates is conceded. His majority will probably reach 7,500, being a gain of 3,000.

First Judicial District.—A majority of 2,000 is conceded to Mills L. Eure over Albertson for Judge. First Congressional District.—Per-

Eure over Albertson for Judge.

The official vote of Northampton county gives Purnell 1,889, Pool 1,019, being a Democratic gain of 25 over

A Rockingham dispatch says that Buxton is elected Judge by from 270 to 277 majority. Stanley gave Buxton 336 majority and Montgomery 400. Pemberton got 1,000 majority rice.

Waddell's majority in the 3rd can a gressional District reached 1,602, and McKoy's in the Fourth Judicial Dising trict reached 931. Nash county made a net Democratic gain last Thursday of 73. Capt. Davis, for Congress, and Capt. Williams, for Solicitor, ran ahead of the other candidates about twenty votes. At Whitakers and Stony Creek pre-cincts large numbers of negroes were

colonized from Edgecombe and other "JUST AS WE SAID."-We clip

the following from the Petersburg News, of yesterday: "It is reported that not a sober editor or localizer has been seen in R:1eigh since last Thursday night. They

will be all right, however, after the celebration last night." Just as we said when all of 'em ommenced taking "sugar in thern"
Friday evening. We said to 'em,
"Boys, if you keep on this way some
little one-horse village paper will
have something to say about it."
But they wouldn't listen to us. Bro. Whitaker, of the Friend of Temper-ance, said it was a national day and should be celebrated. Bragg, of the Sentinel, said lemonade was too weak for the occasion. Evans, of the Crescent, said if he didn't take a "little sumthen" he would do worse. We were involuntarily and unwittingly drawn in the mealstrom, and the fact is all got-well, didn't keep sober. We will say to the News, however, that we are getting the boys a!l straight, and to-morrow (if the Vichey water don't give out) we will have them all on duty.

THE ESCAPE OF LEE DUNLAP .-Every reader of the NEWS must be well acquainted with Lee Dunlap, a negro who was charged with the killing of a white man by the name of Baker in Charlotte, and who has been saved from the gallows by the protecting hand of the Republican party. He was ordered to Wake county jail as a United States prisoner, his counsel having secured a transfer of the case from the State to the Federal Court. While he has been imprisoned in Wake county jail he was said to have been an espe-pecial pet of the Radical authorities, and was allowed privileges not given to other prisoners. On Friday night when it was ascertained that the Democrats and carried Wake county and a Democratic Sheriff was elected the doors of the jail were opened and this guilty criminal allowed to depart his way in peace.. If there is any law left in this country, the guilty Radical officials that permitted this act should be made to suffer on the gallows, if needs be, the punishment of the criminal thus released.

THE OBJECT OF THE INCENDIARY. -It appears from the investigations made by the Insurance agent and others interested in the Smith building, which was fired on the 30th ult. that the object of the incendiary must have been to burn the block and with the aid of his associates, steal the mer-chandise which would have been removed to the streets. Miss Mary Ann Smith, the owner of the buildings, owns sixteen or eighteen storehouses and other buildings, some of which are equally as acceptable to the incendiary, as the one to which incendiary was an enemy of the owner.

This is an additional reason for increased vigilance on the part of our police and a speedy preparation for the fire fiend at the shortest notice.

MEETING OF CITY CONNISCIONEDS

LAST NIGHT.—Henry Miller was elected Mayor during the absence of Mayor Holden.

Henry Clay Jones received the contract for finishing the cistern on the corner of Fayetteville and Davie streets, at \$310 for the brick work IFrom the P-terrourg Index-Appeal.

GREFING.—Theone hundred guns of triumph and congratulation that rang out last night across the Chesterfield Heights, conveyed to the victorious Conservative forces of North Carolina, now resting ou their arms, the greetings of the victorious Conservative army of Petersburg. Nay, more, the voice of Petersburg was the voice of Virginia, as once before the defence of the State was represented by the thin line of ragged uniforms and bright bayonets that circled where the peaceful cerdon of peach trees has since marked the culture and the passage of peaceful days. But no other city, for other good reasons has any better right to speak and \$2.25 per perch for the stone

His death-an event which may be looked for at any momentwould revive many exciting memories in France, dating away back to the time of the great Revolution, of the moral is so which he is the grand historian. Resident Englishmen in New

York city state that the English cricketers allow no betting on their games, and never bet on any of their matches, claiming that none but gentlemen comprise the team that contested and were beaten by the Americans on the 3rd and 4th instant. It was intimated in a city newspaper that the Englishmen allowed the Americans to beat them, in order to get heavy bets on another game, and then retrieve both pocket and repu-

The Louisiana Republican State Convention has recently adopted a resolution declaring that duty and sound policy constrain them to nominate and support for office only honest and capable men who are mindful of the interests of the State and whose records are not a reproach to the party. Supposing they cannot find an honest man in their party in that State, we propose shipping them some of the recently "unloa-ded" in this State, such as Tim Lee and company.

The Statesville Landmark gives the following amusing campaign incident: "In his canvass in the West, Tommie Purnell made a speech at Trap Hill, Wilkes county. Hespoke of his opponent as an illiterate and ignorant man, unable to cope with him on the stump, and consequently was not canvassing with him. He mentioned, incidentally of course, his own acquirements and high attain-Said that he was a graduate of Trinity College, and a member of the legal profession. His position in life, he said, was due solely to his own efforts, his father having died when he was quite young. Just at this point he was interrupted by Mr. Yale, an old schoolmaster, from New Haven, Conn. "Your father is not dead," said Mr. Yale. "You are mistaken, my father is dead," replied Purnell. "No, it is not so," retorted Mr. Nale; "for the scriptures teach that the devil is the father of all liars, and the devil is not dead." How poor Tommie did wither, the reader must imagine."

Conflict of Races in Mississippi. Our noon dispatches yesterday give an account of an actual conflict of races in Mississippi, the negroes having attacked in a body the town of Austin, surrounded the town, and already a large number of lives have been lost in the defence which was being made by the whites. "Let us have peace." Mayor Woodson, commanding the white forces at Austin, is a brother of Capt. E. C. Wood-SON, Local Editor of the NEWS.

Col. Stephen D. Pool.

The office of Superintendent of Public Instruction is no sinecure, and now when the duty of the legislature and county governments to institute measures to cause the establishment of good schools in every school district in the State, is so imperative, the people of North Carolina are to be congratulated that the direction of the matter devolves upon such a man as STEPHEN D. POOL. We speak not here of his gallant canvass, effective as it was, for from this day Col. Pool is the officer of the whole people and will know neither party nor race. We allude to his experience in the duties of a teacher, and his fitness to direct and control the public schools of the State. Let the people without regard to party or color, determine to give him a hearty and effective support and to place the schools of the State upon the plane of a higher efficiency and a greater use-fulness.

Mayor W. F. C. Gregory, of Pe-

It was especially appropriate that the Chief Magistrate of the gallant city of Petersburg, which has so recently passed from under the yoke of Radical domination, should be with the victors of Wake on Monday night. Heartily was Mayor GREGORY greeted, eloquently did he respond. The citizens of Raleigh and others who participated in the demonstration had the pleasure of hearing one of the most thrilling tributes to their grand work, and perhaps the most scathing denunciations of Republicau misrule that has ever been heard in our city. We did not attempt to give a synopsis of the speech, because we found it impossible to do the oratorjustice. We can only tender him again the grateful thanks of our people, and assure him of a perpetual welcome to our hospitality.

The Legislature.

While it is impossible to state the exact position of the two parties in the General Assembly, it is cortain that there will be a two-thirds majority in both Houses. The Senate will probably stand thirty-seven to thirteen, and the House of Representatives will contain from eighty-two to eighty-five Democrats, including independents, perhaps eighty-six.

Large majorities are sometimes dangerous, but after our experience with a small one in the last Legislature, we are willing to try two-thirds or three-fourths with pleasure. We predict that from the counties where the Democrats have been for so long in the minority, the members will be as true as steel to party organization. This is what the State needs, and with honest exertion and careful non-partizan legislation, the fruits of our victory will be secure as long as the republican party exists.

Alamance and Amnesty. Amid the general joy we find here and there a county shrouded in sackcloth, with the ashes of desolation upon her head and no sound of rejoicing issuing from her lips. We have no words of upbraiding, but only the tenderest pity for the once proud county of Alamance. When Richmond and Lenoir, Wayne, Wake and Greene, when Washington, Montgomery and others who were not even saved in 1870, have joined companionship. The moral is so plain that "he may run that readeth it." She sought for help outside the regular organization, and she found for Clerk, and the re-

representative.

a representative. We feel for the true men who were not deceived, we sympathize with the people of the entire county, but it can but be a poignant reflection for them to consider that, while counties which had colored majorities (as Franklin, Lenoir and Richmond) have been saved. the county in which the myrmidons of KIRK held high carnival over the prostrate liberties of her people, had not the spirit to retain its freedom.

THE MEANEST MAN ALIVE.-The

meanest man alive is a woman-whipper. He resides in Bloomfield township, and his name is Aaron Beck. A few days ago this fiend found a woman passing his house—a Mrs. Pickle, whom he hated—and finding her alone caught hold of her by the hair of the head and cowhided her until the blood streamed from every pore. Great welts were produced all over her body and face as thick as the dexter finger of a man's hand. As soon as this human fiend had performed this wonderful feat he mounted his horse, rode to North Bloom-field, got a man to lodge a complaint against him, pleaded guilty, and was fined by Justice Smith \$10 for his fiendish act. On the same day a warrant was issued by Justice Ayers, of North Columbia, on complaint of Mrs. Pickle, which was served on Sunday, the 12th. When the woman-whipper was brought into court on Sunday morning he deliberately pleaded a former conviction for the same offense, and produced a certificate to that effect signed by Justice Smith. Of course horse, rode to North Bloomsigned by Justice Smith. Of course he was discharged. Subsequently he was placed under bonds to keep the peace towards Mrs. Pickle for the period of six months. A suit in civil damages has been commenced against the wretch by Mrs. Pickle, which is now pending .- North Juan (Nev.)

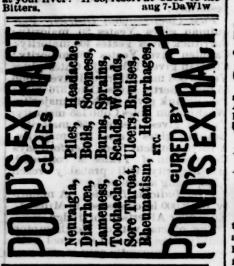

ANOTHER COLORED CONGRESS-MAN.-It seems that the solitary Radical from North Carolina destined to take a seat in the next Congress is Hyman, a man of color, who succeeds Thomas, a white Radical. This is retributive justice, so far as white deserters and alien adventurers are concerned, and shows that when the black vote sticks to its color it can carry its point. In this district there was a majority for Grant of over 5,000, and for Hughes of 1,833, so that if the Virginia negro had the enterprise of his Tar-Heel brother, Mr. Platt would long since have ceased to use the black man as his hewer of wood and drawer of water. It is popularly be-lieved that the colored people of this State have more pride, and intelli-gence, than those of any other Com-monwealth in the South, but in face of the returns from the Second District of the Old North State, the man and brother on this side of the line must through the sponge, and give the through the sponge, and give the through the Landmark. Authentic intelligence reaches us, says the Columbus Sun and Enquirer, of a bloody tragedy which occurred at Malanne, Florida, last Saturday. Charles Nickols, aged some twenty-two years, was killed by E. W. Mooring, who entered a backdoor and with a double-barrel gun fired the fatal shot. Mooring several days ago married Nickols' sister, against the opposition of her family, since which a feud has existed among the opposing elements. Nickols was the opposing elements. Nickols was shot while at his desk, and died four shot while at his desk, and died four hours after. Mooring also endeavored to kill Nickols' father, but could not find him as he was behind a door in the store. Mooring endeavored to kill the latter three years ago. Mooring had been drinking heavily for several days. He is claimed to be insane. He is a lawyer, and a man of wealth. After shooting Nickols, Mooring wanted to kill his wife's sister when he was arrested. sister when he was arrested.

Is Your Stomach Uneasy?—Many a dyspeptic Creesus would be willing, it is said, to give half his wealth for an easy stomach. If this is a fact, why do any of our "solid men" continue to endure the pangs of indigestion? is it not patent to the whole community that Hostetter's Stomach Bitters will cure the worst cases of chronic dyspepals in six or eight weeks? No occasion for the expenditure of half a fortune; obly a few dollars will suffice to accomplish the object. Surely, every man who is not "sand biind" to the great utilitarian facts of the day must know that this celebrated vegetable specific promptly relieves all diseased conditions of the stomach, liver, bowels and nervous system, restores their vigor and imparts regularity to the r functions. Is your epigastrium uneasy? Is the vulture, disease, gnawing at your liver? If so, resort at once to the Bitters.

[Copy.] THE FARMER COOK STOVE.

A Letter from One Who has Tried It. FAYETTEVILLE, N. C., July 29, 1874.

J. C. Brewster, Esq., Raleigh:

DEAR SIR:—Yours of the 22d to hand and contents noted. In regard to the Culver Brothers' Stove, I tought one in the month of March last. The Agent that sold it warranted it to cook cold water corn-bread in fiteen minutes, and every other cooking in proportion. I had it put up by a man by the name of James Carter, a tinner and coppersmith, who has been working in Raleigh and perfectly understands his business, and he took it down three times and could not make it do. I saw the Agent afterwards and demanded my note—he refused to surrender it. I then told him to take the Stove, as it was of no use to me, AND HE EVEN REFUSED TO GO IN AND LOOK AT THE STOVE. So I sent it to town and SOLD IT AT AUCTION. IT BROUGHT \$17.00. THEY SOLD IT TO ME FOR \$48.00. J. C. Brewster, Esq., Raleigh:

IT BROUGHT \$17.00. THEY SOLD IN ME FOR \$48.00.

I bought a Stove in the year 1865, from J. B. Dav s, of the Buck patern, (which you know in nine years' service is the worse for wear.) To-day I would not give it for a wagon-load of the Culver's Stoves. In reality, I would not be compelled to use one of them in my family for \$100.00 per year.

Respectfully,

BARRELS OF FLOUR OF all grades, arriving this day. For WYATT, BINGHAM & CO.

WEDNESDAY.

For the Daily News. Board of Regents.

AUGUST 12, 1874.

Four years ago Dr. Craven drew a bill for a Board of Regents, it was introduced in the Legislature but failed to pass, at the last Legislature he tried the same thing, but again failed even to have it introduced. At the late Educational Convention he read an elaborate paper on the subject, in which all the Institutions of the State are connected, co-ordinated and reduced to a regular system.

The plan proposed is to have four grades of schools, viz: Primary, High Schools, Colleges and a University. The Board of Regents shall whale system in shall control the whole system in literary mattures; they shall prescribe the requisitions for degrees in the University and the Colleges; prepare the questions and conduct the examinations, and determine the degrees all diplomas of the Colleges shall be endorsed by the Regents, but be is sued by the College. The Regents shall prescribe the studies for the Primary and High Schools, prepare the questions of examination, and proclaim the results. All who may be approved on the whole course in the Primary Schools may attend the High Schools; all approved on the whole course, in the High Schools, may attend any of the Colleges, the State paying their tui-tion; and all who graduate in the Colleges, may attend the University without change from tuitions. There are in the State 267,937 children of both sexes and colors within the school age for primary schools. They would require 2,697 schools, and 5,358 teachers. These schools would probably furnish 5,358 scholars to the schools, requiring 54 high schools and 164 teachers, and these high schools would furnish 535 students to the colleges, and these would perhaps send 150 to the University. To work this system, without counting the cost of buildings, would require an expenditure of about \$950, 000 per annum, which is easily and clearly within the resources of the State.

Georgia has recently adopted a system very similar, and the denominational colleges have become (part of them) co-related to the University. Public opinion is moving in other States, and the plan is likely to pre-vail generally, Dr. Cramer and some others in this State, have thoroughly studied the system, are advocating it earnestly, and will present a well matured plan to the next Legislature, and seek its adoption. # Armed Black Paupers-Bread or Blood.

The New Orleans Bulletin says that as an evidence of the hurtful effects of the articles published in the Republican tending to throw out the idea that the rations donated by the vernment were es for the negro, and of the statements which have been made by designing demagogues in relation to the same matter, we have before us a statement from a responsible gentleman who is now visiting the overflowed district in the interest of the Relief Committee which discloses a very serious state of affairs in the country parishes.

Our correspondent writes from the mouth of Red river, under date of the 12th instant, and says he has witnessed many things which it were well for the public to know, and which have at this time a very peculiar significance.

The Government, he writes, is still furnishing rations to the sufferers by the overflow, but when any of the agents run short, the negroes forcibly take what there is. On Raccouci Island, last week, as Mr. B. F. Miles, who was acting as disbursing agent, was issuing rations, the negroes came armed with guns and pistols, and coolly informed him that the rations were sent especially for them, and they intended to have them, even if they had to take them by force. It is scarcely necessary to add that they got them, or that the suffering white people had to starve in consequence of this high-handed outrage on the part of the negroes who are represented by the Republican and by the Chicago Inter-Ocean as the most guileless, harmless, innocent and inoffensive beings in Christendom. It seems that this remarkable ac-

tion on the part of the negroes was brought about by the fact that there was an insufficient supply of rations, and the fear that every darkey would not get all he wanted led them to make an attack in force, which enabled them to gobble everything. These riotous black robbers are armed, says our informant, with new Enfield rifles, of the existence of which, no doubt, General Street and Mr. Kellogg know nothing.
It is a curious fact that Radical

officials are usually ignorant of everything that reflects upon their party, but it is only a verification of the old adage that none are so blind as those who won't see.

In France the widowers exceed the widows three to one. The young widow is always glad to escape from her position, as it is one always held up to ridicule in Paris. On the French stage the young widow is a permanent element in all comedies. In the first act she is in weeds; in the second in a rose colored toilette, and she is doomed to be married in the third. There are widows who see in the service of the marriage tie the arrival of freedom. But these are not true widows, as they have never been true wives. There are others who are prevented from marrying by the last will of their husband-such submit and abandon themselves to dress. But a widower in Paris is never bound to remarry unless he is a prefect, an embassador, or a house porter. All others know that a French wife number two will never pardon number one. She will place her portrait in the lumber room. Moreover the statisticts of that city will prove that second wives survive the husbands, which is a disagreeable event to look forward to. The Parisjenne does not make a good stepmother, if there happens to be children. Neither is the daughter apt to be very tractable.

A Mr. Barnes, of Bridgeport, Connecticut, proposes to utilize all moments of musical inspiration. His invention consists of an electrical apparatus which registers the notes as they are struck. It seems to be e most ingenious machine, far too complicated for a description here. Musicians have long needed such a recording contrivance, and if this invention-in which a mile and a half of wire is used-answer its intended purpose, it will be welcomed with de-

We are the sole agents for central Carolina for the "EXCELSIOR GIN," which is the most perfect ever offered to the public. It pleks the seed perfectly clean, gins fast and makes a nice sample of cotton; the roll is shifted from the centre towards each end, gives the saws a new surface of cotton every revolution, and never breaks the roll. The simplest hand on your place, if large enough to pull the cotton in the box, can feed it all day and not break the roll, which is a new feature. All we want is a trial to convince every thinking man that this Gin will pay for itself and the old one during one season.

# WAR IN MISSISSIPPI.

The Town of Austin Surrounded by 1,000 Negroes.

MAYOR WOODSON CALLS ON ADJOINING TOWNS FOR HELP.

Memphis and Hernando Sends a Company of Volunteers to the Scene of Action.

MEMPHIS, August 11th.-A special to the Appeal, from Helena, Arkansas, received at 8:30 this morning. says: At 11 o'clock last night three ladies and two gentiemen arrived here from Austin in a skiff, and report considerable fighting. Late yesterday evening, Commander of Post, whose name we did not learn, dispatched a scout of twenty-five men on the road to Coldwater Station, on the Mississippi & Tennessee Railroad, and captured a picket of twenty negros, who were stationed about twenty miles from town, and brought them in as prisoners, and disarmed them. One of them, as they were being put into the Courthouse yard, tried to make his escape, when he was fired upon and killed, and in a melee which ensued, another negro was wounded, but not fatally. LATER.-In the evening a large

body of negroes advanced from the south and attacked the town, driving in the white skirmishers to the Court House where the main body of whites were stationed. A charge was made by the whites and the negroes were repulsed with a loss of several killed and wounded. Fighting was going on when our informant left, and they were fired upon as they crossed over to Ship Island.

MEMPHIS, Aug. 11.-A second dispatch from Helena, says Mayor Horn Chalmers, of Hernando, has just arrived here for the purpose of chartering a boat to take men to the assistance of the whites in Austin. He says a courier from Mayor Woodson, of Austin, reached Hernando at daylight, stating that the town was surrounded by about 1,000 negroes and asking for help. About 200 men from Hernando and vicinity will be here at 2 o'clock, and in company with volunteers from this city, will start at four o'clock for Austin.

Dr. Smith, who is the unfortunate cause of the trouble there reached here last night. Some three weeks since hewas attackted in the streets of Austin by a negro, and drawing a pistol fired at the negro, but missed him and killed a little negro girl standing by, which exasperated the negroes to such an extent that they collected a mob and took Dr. Smith to the woods to hang him, which they would have done but for tha entreaty of Mayor Woodson and the Smith has been a voluntary inmate of jail to prevent being mobbed until last Friday, when some of his friends.

### ---Death of Bishop Whitehouse.

CHICAGO, August 11.-Bishop Whitehouse had been sick but a week. Previous to his illness he had taken a trip of 21 days to Wisconsin. During that period he had preached forty sermons. His efforts proved too much for his constitution, and he at once gave up work. On reaching home he was not considered dangerously ill until Saturday evening, when he suffered a stroke of paralysis and became unconscious. Yesterday he aroused sufficiently to recognize his children and receiv the holy communion, but thenceforth declined gradually until his death, which occurred at 9 o'clock this a. m. At the time of his death he was 71 years old.

### A Female Abortionist Comes to Grief.

ST. Louis, August 11.—The police have considerable information in the Fortimeyer abortion case, but refuse to give it out at present. It can be said, however, that she has made a confession to the effect that she has been in the business seven years and has procured several hundred abortions, and implicates quite a number of highly respectable persons in this city. It had been her custom to burn all fetuses on the ground, as she expressed it, "ashes tell no tales." The German girl who was sent to the hospital she says will die.

### The Reported Escape of Marshall Bazine.

Paris, August 11.—There is great excitement in the city in consequence of the receipt of intelligence that Marshal Bazaine had escaped from the island Sainte Marguerite some time during Sunday night. Details of the manner in which he succeeded in getting away are unknown, except that he used a rope ladder and got on board a vessel bound for Italy. The night was dark and stormy. The journals of this city declare that the government will act promptly and energetically in punishing all who cannived at his flight.

AN ENGAGEMENT IN WHICH THE WHITES WERE VICTORIOUS!

Wholesale and Herail Crocers Reinforcements for both sides Arriving.

THOUGH OUTNUMBERED, THE WHITES HOLD THEIR GROUND.

MEMPHIS, August 11.-The third dispatch to the Appeal, from Helena, says that telegrams are being received from the vicinity of Austin, asking for men, arms and ammunition, and stating that unless the whites, who are surrounded in the Courthouse, are not speedily relieved, they will be forced to surrender or be captured. The steamer A. J. White has been chartered to leave at 5 o'clock, and will carry a large number of men well armed. Another dispatch to the same paper says that the negroes who are surrounding Austin, were charged on the South this morning by a body of mounted whites, who killed four or five negroes and captured twenty. The blacks number about seven hundred. The whites have about two hundred. Both parties are expecting reinforcements. At present, the whites have got the best of the fight. The negro hands on the plantations opposite, on the Arkansas side, are arming and marching to Austin in large num-

More of Beecher-Tilton Affair. NEW YORK, August 11.—Moulton was at his residence all day. He refused to say if his statement would be made public to-day and would not answer any questions on the subject. District Attorney Winslow, Theo. Tilton and Moulton's stenographer were in attendance upon Moulton from an early hour and remained closed with him for an indefinite period. The house was besieged by newspaper reporters, but nothing definite could be learned. District Attorney Winslow in conversation said that it was more than probable that the statement would not be ready for publication for a day or two, as the Committee had to compare documents contained in it with those already in possession. More than this he was unable to say.

LATER.-Moulton's testimony was very brief. He refused to give up any of the documents to the Committee, excepting such as had been alluded to and of which extracts had been handed to the Committee by Tilton. These show that Tilton had garbled letters for his own advantage, and in the same cases had divided the documents for the purpose of handing in cumulative testimony.

Collyer responded slowly on the eighth round. Betting was \$100 to \$250 in favor of Edwards. On the 11th round a few exchanges were had when Collyer refused to continue to fight, on the ground that Edwards had something in his hands. The Judge refused to allow the claim and ordered the fight to go on. Collyer refused and the Judge withheld his decision.

CHICAGO, August 11.-Gen. Pope telegraphs Lieut. Gen. # Weather Probabilities.

WASHINGTON, Aug. 11.—For the South Atlantic States, lower barouneter, high temperature, winds mostly from southeast to southwest, partly cloudy weather and occasional rain areas.

Many who are suffering from the effects of the warm wea her and are debilitated, are advised by physicians to take moderate almounts of whiskey two or three times during the day. In a little while those who adopt this advice frequently increase the number of "drinks," and in time become confirmed inebriates. A beverage which will not create thirst for intoxicating inquors, and which is intended especially for the banefit of debilitated persons, whether at home or abroad, is Dr. Schene 's Sea Weed Tonic. Containing the juices of many medicinal herbs, this preparation does not create an appetite for the intoxicaling cup. The nourishing and the life-supporting properties of many valuable natural productions contained in it and well known to medical men have a most strengthening influence. A single bottle of the Tonic will demonstrate its valuable qualities. For debility arising from sicaness, over exertion or from any cause whatever, a wine glassfull of Sea Weet Tonic taken after meals will strengthen the stomach and create an appelite for wholesome load. To all who are about leaving their homes, we desire to say that the excellent effects of Dr. Schenck's seasonable remedies, Sea Weed Tonic and Mandrake Pil's, are particularly evident whemstaken by those who are injuriously affecte: by a change of water and diet. No person should leave home without taking a supply of these safeguards along. For sale by ail Druggists. by all Druggists. and 4-tf

In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary There is no cathartic for the purpose equal to Dr. J.
